Introduction

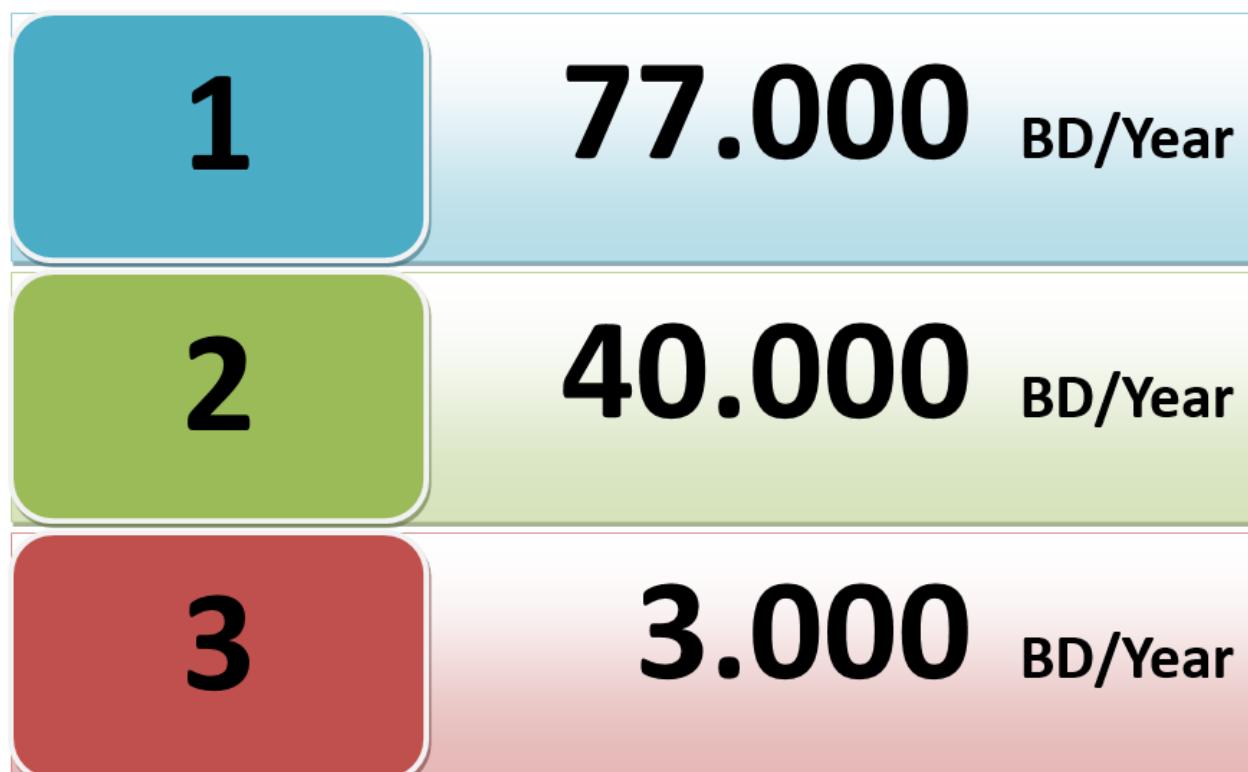

Inequality Condition Structure

Bimboola

In this study you will become a citizen of a new society called Bimboola. You will start a new life there, and become a member of Bimboolean society. Bimboola is just like any other society.

Bimboola is a society that is quite unequal in its wealth distribution. This means that the wealth gap between the poorest and wealthiest people in Bimboola is quite large (in particular compared to the wealth gap in other societies).

There are three main income groups in Bimboolean society. The income distribution in Bimboola takes the shape of the picture below.

You can see in the picture that:

- **income group 1** earns on average 77.000 BD per year
- **income group 2** earns on average 40.000 BD per year
- **income group 3** earns on average 3.000 BD per year

In order to start off your new life in Bimboola you will be assigned in one of these income levels.

On the next page you will receive information about the Bimboolean income group to which you have been assigned. Please read this information carefully.
